CHOOSING YOUR OWN STYLE

Everybody wants a new kitchen that mirrors their own personal taste. For example, simple clean lines reflect a modern outlook, whilst intricate detailing suggests a warmer, homely feel. The Studio collection has a wide range of fabulous designs so it's easy to achieve the perfect look.

Selecting the right style

Maybe your customer prefers traditional timber designs or a Classic Shaker style. Others may like a more contemporary look with an exotic woodgrain effect or a stunning gloss finish. Whatever their preference, they can choose from one of our four exceptional ranges – Traditional, Classic, Contemporary, or In-Line. All have been inspired and created by our designers to suit not only their desired finish but also their budget.

Selecting the right price

All of our doors are grouped into price bands, so selecting just the right one is easy. Once your customer has made their selection, simply find the chosen range within the price bands shown on pages 08-09 (for example, Woodbury is Price Band 2). Then simply go to that section of the price guide, where you will find all the information and prices for the available units and accessories in your customer's chosen range.

Adding the finishing touches

The Finishing Touches section gives full details of the decorative and practical accessories that are available with our kitchens. This includes everything

from subtle lighting options, ingenious storage devices and hard-wearing worktops. We offer a wide range of handles to suit every taste and door style. Please remember all handles need to be ordered separately from the units and are chargeable.

Deliveries

RFA Kitchens - Deliveries are 7-10 days from the date the order is placed.

Premium RFA Kitchens - Orders to be placed by 12 noon Tuesday of week 1 for delivery week 3.

Assembled Kitchens - Orders to be placed by 12 noon Tuesday of week 1 for delivery week 3.

Premium Assembled Kitchens - Orders to be placed by 12 noon Tuesday of week 1 for delivery week 3.

We also offer a Home Delivery service for our assembled kitchens, which is a two person premium delivery service direct to your customer's home. A home delivery form will need to be completed each time this service is required (a copy of the Home Delivery form can be requested from your Business Manager or contact our Retail Sales Office on 01226 446541).

HOW TO ORDER

Choose your specification

Choose from Ready for Assembly, Assembled, Premium, Ready for Assembly or Premium Assembled. Inline and New Haven are available as Assembled or Premium Assembled specification only. Our standard Ready for Assembly product will be supplied if no cabinet specification is given (except Inline, and New Haven which will be supplied as Assembled if no cabinet specification is given).

Choose your door style and colour

Choose from our Contemporary, Classic, Traditional, or Inline ranges. The Contemporary, Classic and Traditional ranges are marked by C, CI and T on pages 08-09, then state the chosen door style and colour, for example, Rockfort Ivory is shown on page 08. Please refer to the Inline section for all Inline door/colour choices.

Choose your cabinet colour

For example, Ivory – If no cabinet colour is specified, the standard cabinet colour will be supplied (see page 13 for standard cabinet colours).

Choose your drawer box

Our Classic and Traditional ranges are available with timber drawer boxes as an optional upgrade. To order, simply specify EKO after your chosen range, for example – Rockfort Ivory Premium EKO (see red prices throughout the price bands for cabinet availability). A metal drawer box will be supplied as standard.

Replacement ends

A selection of our ranges are available with frontal matched replacement cabinet end panels (see pages 14-15 for availability). Simply select the cabinets that require a replacement end and follow the instructions on page 16 to order.

Select the handings

- The side of the hinge on single cabinets (e.g. LHH Left Hand Hinge)
- The side of the blanked end of corner cabinets (e.g. LHB Left Hand Blank)
- The position of the drainer on sink cabinets (e.g. LHD Left Hand Drainer, for cabinet with a right hand dummy drawer)
- The end position of a 45 degree base cabinet and base wing end cabinet (e.g. LHE Left Hand End)

Choose your handle option

Choose your handles from pages 168-170 of the Finishing Section Touches (check drillings before ordering); we have also included our recommended options for each door on page 171. Handles are chargeable; if a handle is not specified then they will not be supplied.

Choose your worktops

For example, Dark Ash 40mm postformed (see page 19 for colour options and pages 160-161 for sizes/prices).

Choose your finishing touches

For example, lighting, splashbacks and storage (see the finishing touches section for all options).

Choose your delivery option

For example, for Branch or Home Delivery (please complete the home delivery form). Confirm delivery address (including postcode) and required delivery week commencing date on all orders.

Add your order number

Please include an order number/reference on all orders placed.

REPLACEMENT CABINET END PANELS

To enhance the finish of a selection of our kitchens, replacement cabinet end panels are available to order at no additional cost if ordered with the unit.

The replacement end panels are designed to be fitted to the exposed ends of a unit run only. On base and tall units (for example larger units and tall appliance housings) the replacement cabinet end panel is a full length panel extending to the floor and therefore additional blender panels will not be required.

Please note: Belfast sink units, worktop dressers, dresser boiler housing, diagonal wall units and reduced depth base unit are not available with replacement cabinet ends.

HOW TO ORDER

The replacement cabinet ends are easy to order. Simply add one of the following suffixes to the standard unit code:

- For a replacement cabinet end to the left hand side of a unit add GL.
For example BU56F GL (See Fig.1)
- For a replacement cabinet end to the right hand side of a unit add GR.
For example WU572GR (see Fig.2)
- For replacement cabinet ends to both left and right hand sides of a unit add G2. For example LU56 G2 (see Fig.3)
Please note on base and tall units, both panels are full length extending to the floor

For Ready for Assembly units the replacement cabinet end panels will be supplied as separate replacement ends for the standard cabinet end panel.

CORNER UNITS

All corner base units have centre hung doors with 110° hinges. Corner posts and blanking panels are fitted as standard. On corner base units with a corner post, a blanking panel covers the void of the unit.

Some of our corner base units are available with a shelf or with a range Kesseböhmer storage (not fitted). Kesseböhmer storage options include Le Mans ½ Carousel, or a Magic Corner, see price bands for prices and availability.

IMPORTANT: Please specify the handing of the side of the blanking panel when ordering, example for Right Hand Blank order RHB and vice versa for Left Hand Blank.

L Shaped Corner Base Units

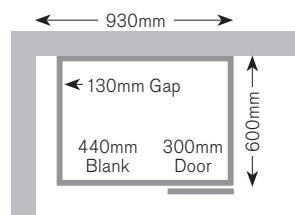

A corner unit can be ordered with either a shelf or a revolving 3/4 carousel (not fitted). The two doors are hinged on the end panels and open to 170°. Full height door or door and dummy drawer front styles are available.

Diagonal and Concave Base Units

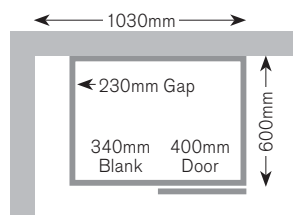

A diagonal corner unit with a shelf. Diagonal and concave corner base units have a single hinged door that opens to 110°. Diagonal corner base units available with full height door and door/dummy drawer front styles. Concave corner base units are available with a full height door only.

Milano range of corner base units allows wide flexibility in the positioning of corner units for the clearance of water or soil vent pipes when required.

CORNER UNITS

Corner Wall Unit

Conventional corner wall units should be positioned 30mm from the return unit. The corner post supplied, automatically spaces out the return unit to avoid the clashing of protruding handles.

Diagonal and Concave Corner Wall Unit

The diagonal and Concave corner wall units, including spacers, fits into a corner situation measuring 630mm x 630mm. Diagonal and Concave corner wall units cannot be hung separately or at the end of a run of units.

L Shaped Corner Wall Unit

'L' corner wall units are designed to provide an additional 30mm in both directions. Consequently, no additional spacing is required.

Corner Larder Unit

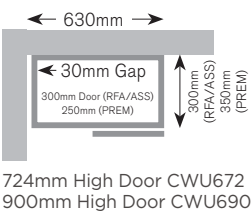

Corner larder units should be positioned 30mm from the return unit. The corner post when fitted will space out the unit to avoid clash of handles. If the larder adjoins a base or wall unit then a full blanking panel (supplied) should be fitted.

Corner Post

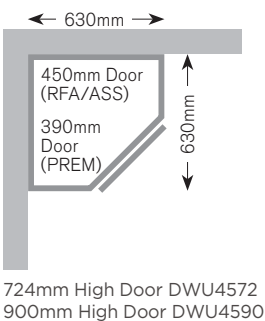

The corner post allows product ranges with protruding handles to be offset by 30mm in order to avoid possible clashing of drawer handles in a corner. The corner post automatically spaces out the units to the correct size across Dimension A. However, the fitter must remember to position the corner units (as appropriate) from the wall (see below).

NOTE: Some handles are not suitable in corner situations.

CHOOSING YOUR OWN STYLE

Maybe you like the ultra modern look of high gloss, or a simple matt finish? Or perhaps you prefer a more exotic woodgrain effect, possibly in a mix-and-match style with a solid colour. With matt and gloss finishes, you can tailor your style to give you the kitchen of your dreams.

Orlando	18mm	HPK446	128mm, 160mm, 192mm (Dakar and Grey Undrilled)	128mm(h+v), 160mm, 192mm (Dakar and Grey Undrilled)
Plaza	18mm	HPK462	160mm, 192mm (Porcelain and Cashmere Undrilled)	160mm, 192mm (Porcelain and Cashmere Undrilled)
Rockfort	22mm	HPK465	160mm	160mm
Salerno	18mm	HPK279	Knob, 128mm	Knob, 128mm
Westport	19mm	HPK434	128mm, 224mm	128mm, 224mm
Woodbury	19mm	HPK448	128mm, 160mm (Basalt Undrilled)	128mm, 160mm (Basalt Undrilled)

All drawer front drillings are horizontal. Door front drillings are vertical unless otherwise stated – (h) indicates horizontal drilling. Long bar handle drillings are relative to the frontal size and use handles HPK212-217. If choosing a handle other than the recommended handle, please check the handle centres on pages 168-170 and the pilot drilling information above to check compatibility. Please also check bolt lengths before drilling if using a non-recommended handle. We strongly recommend that you choose a handle that will fit the pilot drillings above as these will help you to position the handles. We cannot be held responsible for the way you drill the doors or the positions you choose if you select a handle that does not fit the pilot drillings. All handles are chargeable. If you do not specify a handle on your order, none will be sent.

FRONTALS & CABINETS

Frontals

Cabinets

Solid Backs

Drawer Boxes

For Frontals with inset handles, please contact the Retail Sales Office for prices.
 Handing required for New York and Inline frontals, hand by hinge. Please also state if Base/Wall where applicable.
