Introducing the Howarth GreenHouse...

Howarth Timber & Building Supplies is proud to introduce the Howarth GreenHouse, combining the latest environmentally focused products with specialist proven training solutions.

sustainable
products

Working alongside some of the world's foremost manufacturers of sustainable solutions the Howarth GreenHouse range includes the latest energy saving innovations, including solar thermal, solar photovoltaics, air/ground source heat pumps, biomass boilers, mechanical ventilation heat recovery, external wall insulation and voltage optimisation, amongst others.

supply
& fit

To complete the picture we also offer fully certified supply and fit of air/ground source heat pumps, biomass, solar photovoltaics, solar thermal, mechanical ventilation heat recovery and underfloor heating through our installer network.

Visit www.howarth-timber.co.uk for more details on our extensive selection of products and services.

The renewable energy installation industry is the fastest growing sector within the construction, building services and engineering sectors.

The Howarth GreenHouse offers information and training across the complete range of renewable energy and energy saving products.

With working models of air source heat pumps and rain water harvesting as well as display units from insulation to mechanical ventilation heat recovery, the Howarth GreenHouse is able to provide a bank of specialist knowledge, training and resources at one of the few dedicated centres of its type in the North West.

We can help your company to Accredited Green Deal Installer status through our PAS 2030 training and quality management systems. Contact us for details.

Call us on 0330 119 2529 to discuss your training requirements today.

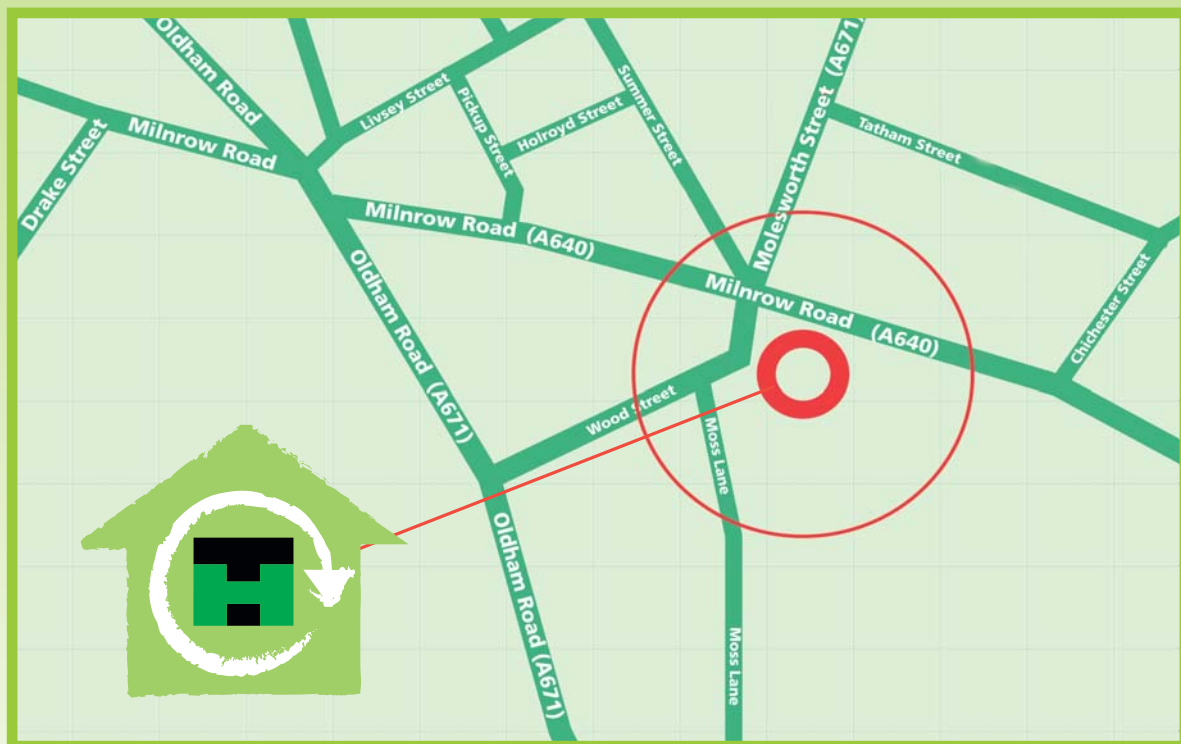

The Howarth
**Green
House**

The GreenHouse offers much more than simply products, it's a dedicated learning and training centre providing specialist training solutions for the renewable energy industry and for sustainable construction as a whole.

With a local focus and links with existing businesses in the surrounding areas, the GreenHouse is one of the few centres of its type in the North West and represents significant ongoing investment by the Howarth Timber Group in the local area and in sustainability as a whole.
