

# THE AUTOGRAPH COLLECTION

### INTRODUCTION

There is no place like home. And there's no room like the kitchen. It's the most important living space of all, the beating heart of every house...

Our Autograph collection has been created to give you a kitchen that you'll love. A place where not just spectacular food, but memories are made and shared.

Autograph has four distinct ranges, inspired and created by our designers that let your dream come to life. Explore the modern Linear range or choose from our Contemporary, Classic and Traditional ranges and discover a unique blend of style and elegance.

As with all work surfaces, Symphony's products may become scratched or tarnished in everyday use. All of Symphony's worktops, including our gloss finished worktops, are constructed to a very high standard and come with a 5 year warranty. On gloss finish worktops, scratches arising in everyday use may be more visible due to the greater amount of light reflected from the gloss surface. The appearance of scratches does not in itself mean that the product is not of satisfactory quality. Symphony use numerous materials in the manufacture of your kitchen and these different products may reflect light in different ways. Accordingly, this may give rise to the appearance that the colours of the different components of your kitchen do not match absolutely. A slight difference in colour between different components does not in itself mean that the product is not of satisfactory quality. This does not affect your statutory rights. To ensure the continuous development and improvement of our products, we reserve the right to make changes to the colour, design and descriptions or methods of manufacture of our furniture. Such changes may be made without prior notice and without incurring liability. In many of our products we use wood, a natural living material which will reflect a numerous variety of grains and textures and so variances must be allowed for. Styles that feature timber, PVC, laminates and melamine finishes may incur a slight colour change over the years. The term 'solid timber' applies to door and drawer fronts only. Colour reproduction in this brochure is as accurate as printing techniques will allow. Not every showroom contains these products.
