

Boiler Pipe Casings

- Quicker installation
- Consistently smart
- Solid and durable
- Fits standard boiler sizes
- Hardwearing
- Simple to install
- Easy access

Boiler Pipe Casings

Pendock's Boiler Pipe Casing Solutions are perfect for the replacement of existing boilers as well as new boiler installations where there is a need to conceal boiler pipework. They complement any boiler replacement or kitchen refurbishment programme.

Our Boiler Pipe Casing offers full and easy access to the underside of the boiler to allow for annual Gas Safety checks, as well as being a practical and simple solution to hiding ugly pipework below and above the boiler.

Benefits

- **At least 65% quicker installation than site made alternatives**
 - doesn't require multiple trades or on-site decoration
 - saving you time and money
 - helping you to professionally complete jobs - faster
- **Consistently smart uniform finish on every project**
- **Formed from solid and durable 8mm thick wood**
- **Hardwearing and easy clean surface finishes**
- **Simple to install**
 - can be easily and cleanly cut down to suit site requirements
 - easy fix wall mounting channel supplied with each product
- **Provides easy access for maintenance and annual servicing**
- **Fits standard boiler sizes**
