SPECIALIST SERVICES

REMEMBER. Payments on the day will be strictly by Howarth Timber credit account, cash or credit/debit cards – NO CHEQUES ARE ACCEPTED.

ProQuant estimates are an essential tool when you are tendering for a building project, helping to save you both time and money.

By creating a detailed materials, labour and plant estimate for domestic build projects, the ProQuant systems provides you with an estimated total project price and also a tender letter suitable for submitting to your client.

Our estimates are broken down into logical build order, estimating for each build stage individually. Regular checks to the materials database ensure all prices quoted for are up to date and obtainable.

Once the project is confirmed, our estimate is then an essential tool in helping you to manage the build.
