**BASED IN NEW HOLLAND, NORTH LINCOLNSHIRE, DEDICATED TO PROVIDING HIGH QUALITY TIMBER PRODUCTS TO THE UK MARKET**

Our reputation as a centre of excellence in timber window and door production is closely linked to our location on a 70 acre site which integrates manufacturing and port facilities on the Humber's south bank.

**A PROUD HERITAGE**

As part of the Howarth Group we have a solid history of success. In 2015 the Group celebrates its 175th birthday and the year also marks 30 years of manufacturing in North Lincolnshire.

New Holland is the former embarkation point for the London & North Eastern Railway's ferry service to Victoria Pier, Kingston upon Hull. The service was

operational from 1820 to its closure in 1981, when the Humber Bridge opened.

The dock, built around 1848, is used for importing timber from Scandinavia, Russia and the Baltic states. The site is dedicated to processing timber into products for the building industry.

Howarth Windows & Doors operate within this site and specialise in producing high quality engineered timber windows and doors specifically for the UK market.

The New Holland site is an exceptional success story, having seen its workforce increase ten-fold. With continuous investment we're looking forward to building on our heritage and further developing our facilities to maintain our position at the leading edge of timber window and door manufacturing in the UK.

**INTENSIVE PLANT DEVELOPMENT BACKED BY FOCUSED FINANCIAL COMMITMENT**

- A major investment in plant, product development and people.
- Located within the flourishing 70 acre New Holland site which integrates manufacturing and port facilities on the south bank of the Humber estuary.
- All our windows are inspected by the BSI team to ensure compliance with standards laid down by the TWA scheme.
- We are proud to have earned the IIP (Investors in People) Silver Award.
- Range meet relevant EEA health, safety and environmental protection legislation.

- Founder member of the British Woodworking Federation Timber Window Accreditation Scheme.

- Founding member of the Wood Window Alliance.

- All Howarth timber windows and doors carry our extensive and comprehensive guarantees.

- 2015 marks 30 years of manufacturing in North Lincolnshire.

**BENEFIT FROM OUR MULTI MILLION POUND INVESTMENT IN THE LATEST CNC PROFILING AND MACHINING CENTRES RESULTING IN SUBSTANTIAL IMPROVEMENTS IN ALL ASPECTS OF OUR PRODUCTS AND SERVICES**

Over recent years we have invested in state of the art timber profiling and machining centres and upgraded our existing preservative treatment and paint application facilities. This combination of new machinery

and upgrades to existing plant has meant even higher quality fully finished laminated softwood timber windows and doors across the product range.

Up to date processes, supported by the latest glazing technologies put Howarth at the forefront of the UK's timber window and door manufacture.

**INVESTMENT IN PEOPLE PRODUCES REAL BENEFITS IN PRODUCT QUALITY**

At Howarth we work in co-operation with the Woodworking Industry Training (WIT) Forum to maximise the skills of our workforce. We train to a high level in manufacturing operations, with employees attending courses in timber skills, technical skills, apprentice development and other relevant programmes. Ongoing training means all employees are up to date with our modern processes and technology. The training also motivates and supports employee commitment.

Our ongoing training has been recognised through the Investors in People Silver Award which we achieved in 2014. Meeting this nationally accredited standard was an important marker in our drive to improve performance and realise our objectives through the management and development of our people. We have seen improvements in productivity, profitability, and in the recruitment and retention of high quality staff with the skills necessary to produce the results our construction industry customers require.

INVESTOR IN PEOPLE

**THE QUALITY OF OUR PRODUCTS MIRRORS THE QUALITY OF OUR PEOPLE**

**INVESTMENT TO IMPROVE ORDERING PROCEDURE FROM THE INITIAL INQUIRY THROUGH TO DELIVERY**

Our commitment to the development of our people, products and the latest manufacturing processes come together in a product range that meets the demands of the construction industry in the 21st century. The experienced and accessible Howarth Sales Team can advise customers on product choice, supported by our internal BFRC accredited simulator which provides up to date guidance on product energy performance. This ensures specification which is exactly relevant to customer requirements.

to delivery of the order using our own transport fleet direct to customers' point of use on site.

The experienced Howarth Regional Sales managers combined with a dedicated Project Estimating Team at the New Holland sales office can advise customers on product choice. Our expertise and experience are relied upon by customers, many of whom have traded with us for decades.

From first contact at initial enquiry, we pride ourselves on providing up to date advice and technical support right through

**YOUR PROJECTS CAN PROFIT FROM OUR INVESTMENT IN PLANT**

We have a long term commitment to the manufacture of timber windows and doors. Our specialised experience is complemented by ongoing development of our range to the benefit of our customers.

The inbuilt flexibility of our equipment means that we are able to offer a make to order service with similar lead times to those for standard size and configuration windows.

All Howarth products are CE marked, satisfying rigorous independent testing at UKAS accredited test houses to ensure compliance with the most up to date building regulations. On the security front, all products offer Approved Document Q compliant 'Secured by Design' options or are supplied SBD compliant as standard.

(Left and above) Highly skilled and trained craftsmen at work on our latest CNC machines.
