CREATE BUILD ASPIRE

You have many different options and products to consider when updating a home but little has more impact than one of our beautiful timber doors.

But that's just part of the story; our breadth of range means we have products to suit most applications and budgets, from stunning internal oak doors – to external folding systems that will make a statement in almost any home.

We understand the needs of customers and seek to create products they aspire to own. Stringent quality control checks help ensure consistency across the range providing customers with the knowledge they are investing in products they can trust.

customer needs

WHAT MAKES A GREAT **INTERNAL DOOR**

Having beautiful internal doors is considered a given amongst most discerning home owners. They are the finishing touch that when combined with complementary hardware and architrave can turn an ordinary interior into an extraordinary one.

Not all doors are created equal and often it's difficult to choose between similar products. With this in mind you'll find a selection of features highlighted opposite. But if there's something more specific you need to know, please ask, we'd be delighted to help.

Pair Makers

Featured door
2no Oak Worcester Glazed Doors with the Contemporary Oak Pair Maker

Featured door
2no White Primed Monza Doors with the White Pair Maker

Our Pair Makers allow for the creation of a door pair with any of our internal doors. The metric door pair gives the range added flexibility as it can be used on any Oak internal metric door within the range.

Product Description	Code	Size
Contemporary Oak Pair Maker	COAKPM	To suit 78" high doors only
Metric Oak Pair Maker	OAKPMMET	To suit metric sized doors only
Oak Pair Maker	OAKPM	To suit 78" high doors only
White Pair Maker	WHITEPM	To suit 78" high doors only
Hardwood Pair Maker	HWPM	To suit 78" high doors only
Pine Pair Maker	PINPM	To suit 78" high doors only

Not suitable for obscure glazed doors.

The Pair Maker can be fitted to either a left or right hand door.
For installation apertures add 10mm to the overall width of the two doors (not including clearance).

Pair maker is attached to the slave door and acts as a rebate to the other door.

Engineered construction for greater stability and performance

Selected natural wood veneers reflect the natural beauty of timber (e.g. Oak, Hardwood and Pine)

Doors available as factory assembled doorsets for easy on site installation

Sourced from sustainably managed forests

Toughened Glass for enhanced safety

A range of frame and sidelight options for non-standard door openings

WHAT MAKES A GREAT EXTERNAL DOOR

The choice and finish of an external door can express as much about the individuality of the home and its owner as the architecture. After all it's the first and last thing you see and making a good first impression counts.

As with our internal doors you'll find our external range offers superior features and performance. With this in mind you'll find a selection of features highlighted opposite. But if there's something more specific you need to know, please ask, we'd be delighted to help.

In the interest of environmental concerns and improved performance, products contain
engineered timber components including laminated timber, MDF or Particleboard.

Residential Doorsets

Features include:

Security hinges

3 Way Multi-Point Locking System*

Vectis locking system for added security available in a choice of Chrome or Brass hardware

Stormguard trimline low threshold

Weather bar/ rain deflector

Optional Letter plate (available in a choice of Chrome or Brass)

Our High Performance Doorsets are developed to meet the exacting standards of PAS23/24.

PAS23: includes testing to BS6375 Part 1 with respect to weather performance and also general performance requirements.

PAS24: tests the enhanced security performance of the door. This is a full blown attack on all parts of the door construction such as glazing, locks, joints and beads. The range also comes with a number of features highlighted on the page opposite.

PAS23/24 complaint Doorsets are available on Suffolk (see page 85) and Chancery with Brass Caming (see page 81). Both our Residential Doorsets and High Performance Doorsets are available on all of our external doors.

Doorset Option

Ledged and Braced, Framed Ledged and Braced and Arch Top Gates all come with a 1 year guarantee.
In the interest of environmental concerns and improved performance, products contain engineered timber components including laminated timber, MDF or Particleboard.

Available on all
External Pine Doors

Pre-Finishing

Having your doors professionally finished adds the finishing touch. It's also one less thing to worry about, that's why we offer a pre-finishing service on all our internal doors.

All our internal doors are finished using professional coatings. This provides an aesthetically pleasing and durable solution. All doors come with a clear stain to enhance the natural look of the timber with the exception of hardwood doors which are supplied with a rich mahogany finish.

Featured door

Ragusa with Clear Glass (see page 17)

Featured door

Louis (see page 35)

Please maintain regular treatment and care of pre-finished doors. Failure to maintain/replenish the finish can invalidate the guarantee.

We do not recommend the use of clear woodstain on external doors as they give the door less UV protection than other coloured stains. Do not use thin penetrating seals, oils, wax, dyes, preservatives or hard, brittle varnish finishes.

Featured door

Messina with Obscure Glass (see page 27)
