

THE COMPLETE DECKING SYSTEM

arbordeck®

arbordeck[®]
the complete decking system

DESIGNED FOR YOUR LIFESTYLE

Your complete timber decking solution

Arbordeck® is manufactured by a British company with more than 175-years' experience in the timber industry, and offers arguably the widest choice of decking products to help you extend your home into the garden.

The range includes smooth and grooved softwood boards, a choice of enhanced grip deck boards, joists and a wide selection of balustrades with a range of styles and finishes for both commercial and domestic applications.

So, whether traditional or contemporary, Arbordeck has the garden decking products to suit your taste and budget.

- / Sustainably sourced
- / Chain of Custody certification
- / Choice of deck styles and sizes
- / Joists, rails and support timbers
- / Treated for long-life performance
- / Quality European timber offering increased strength and stability
- / Complementary products available

ARBORDECK = PEACE OF MIND

Sustainable in every sense

Arbordeck is a founder member of Forests Forever, the environmental voice of the industry and we work closely with both FSC® and PEFC.

We're proud to be one of the few manufacturers to offer a full Chain of Custody Certified decking system. This provides full traceability, ensuring that all of our products come from well-managed sources.

Sustainability is also about providing a deck that will look good for years to come. This is why we only use quality European timbers from northern latitudes, where the wood fibres offer a closely packed structure and increased strength and stability.

We also treat all our softwood products in the Arbordeck range, even the components you don't see when your deck is completed, with Naturewood, an advanced preservative to keep your deck in top condition.

SUITABLE FOR ALL CHALLENGES

Whether steeply sloping or inaccessible, there's an Arbordeck solution for you

An Arbordeck deck can bring in to use difficult or inaccessible garden areas that would be near impossible to undertake with other landscaping materials.

Whether you're looking for a practical and attractive solution for a balcony or a cost-effective alternative to a conventional lawn, decking can provide a year round extension to your living space and, with only minimal maintenance, will be as good in years to come as the day it was installed.

For instance, the introduction of a relatively straightforward deck on a steeply sloping site can produce an area for relaxing and entertaining with excellent storage space below the deck.

GET CREATIVE

Make the most of your outdoor life

Not only practical and cost-effective, with careful design decking can add real value to your home and make those moments you spend in the garden even more special.

Clever changes of board direction, mixing smooth and grooved boards, introducing more than one deck level, creating shapes, careful selection of balustrade style or the addition of features such as rope and deck planters all help you create an individual design statement.

You can even add a simple gazebo using Arbordeck deck boards and support timbers.

The creative options are endless with Arbordeck!

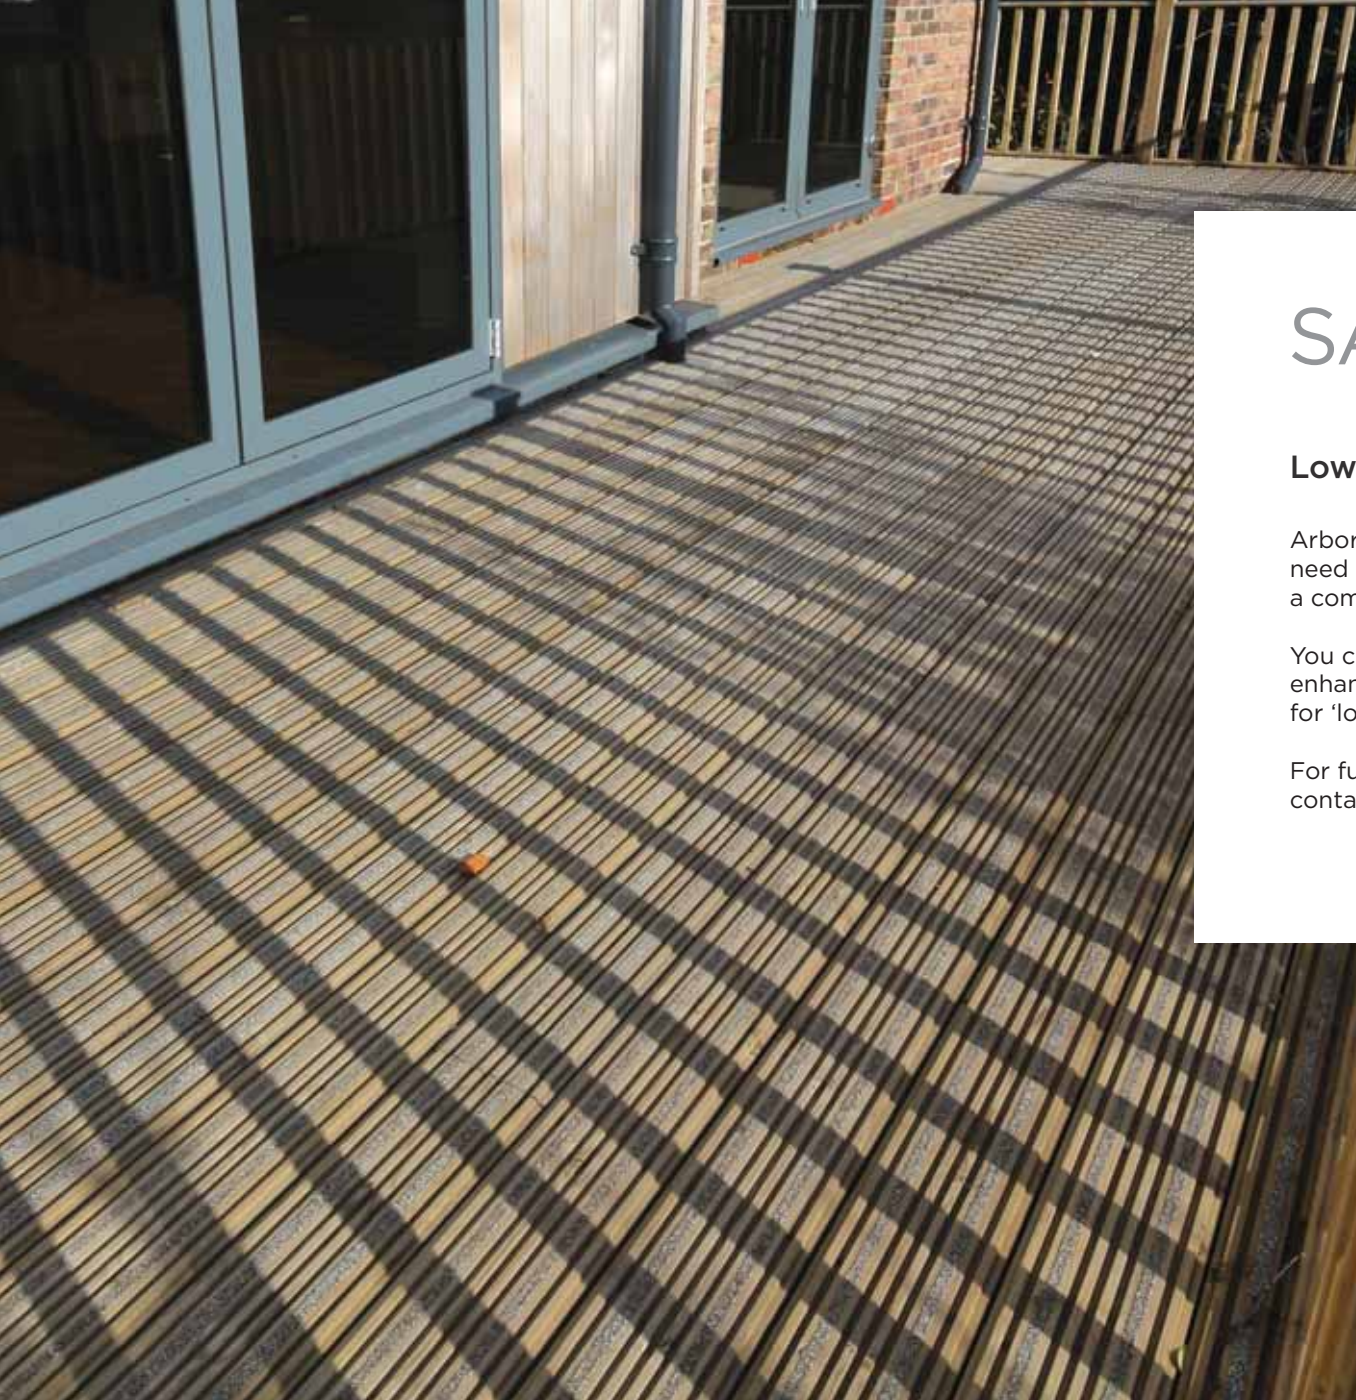

Top left. Decking is perfect for integrating with hot tubs, outdoor sofas and even trampolines!

Top right. Transform an unused area into a warm and welcoming space.

Bottom left. Add special design features such as deck planters.

Bottom right. A combination of smooth and grooved boards create a striking design statement.

SAFETY FIRST

Low-slip decking, when safety is paramount

Arbordeck offers a range of solutions for those areas where you need extra grip properties, such as steps and ramps, or even for a complete deck, particularly useful for schools and colleges.

You can be assured of quality and longevity with all Arbordeck enhanced grip decking, which all surpass the minimum requirement for 'low-slip potential'.

For further guidance and maintenance information please contact Arbordeck.

COMMERCIAL

An ideal solution for commercial decking

Strong environmental accreditations and a wide choice of materials and finishes makes Arbordeck the natural choice for the specifier.

Perfect for projects as diverse as schools and leisure parks, office break-out areas, restaurants, pubs and clubs, Arbordeck is more than a match for even the most demanding applications.

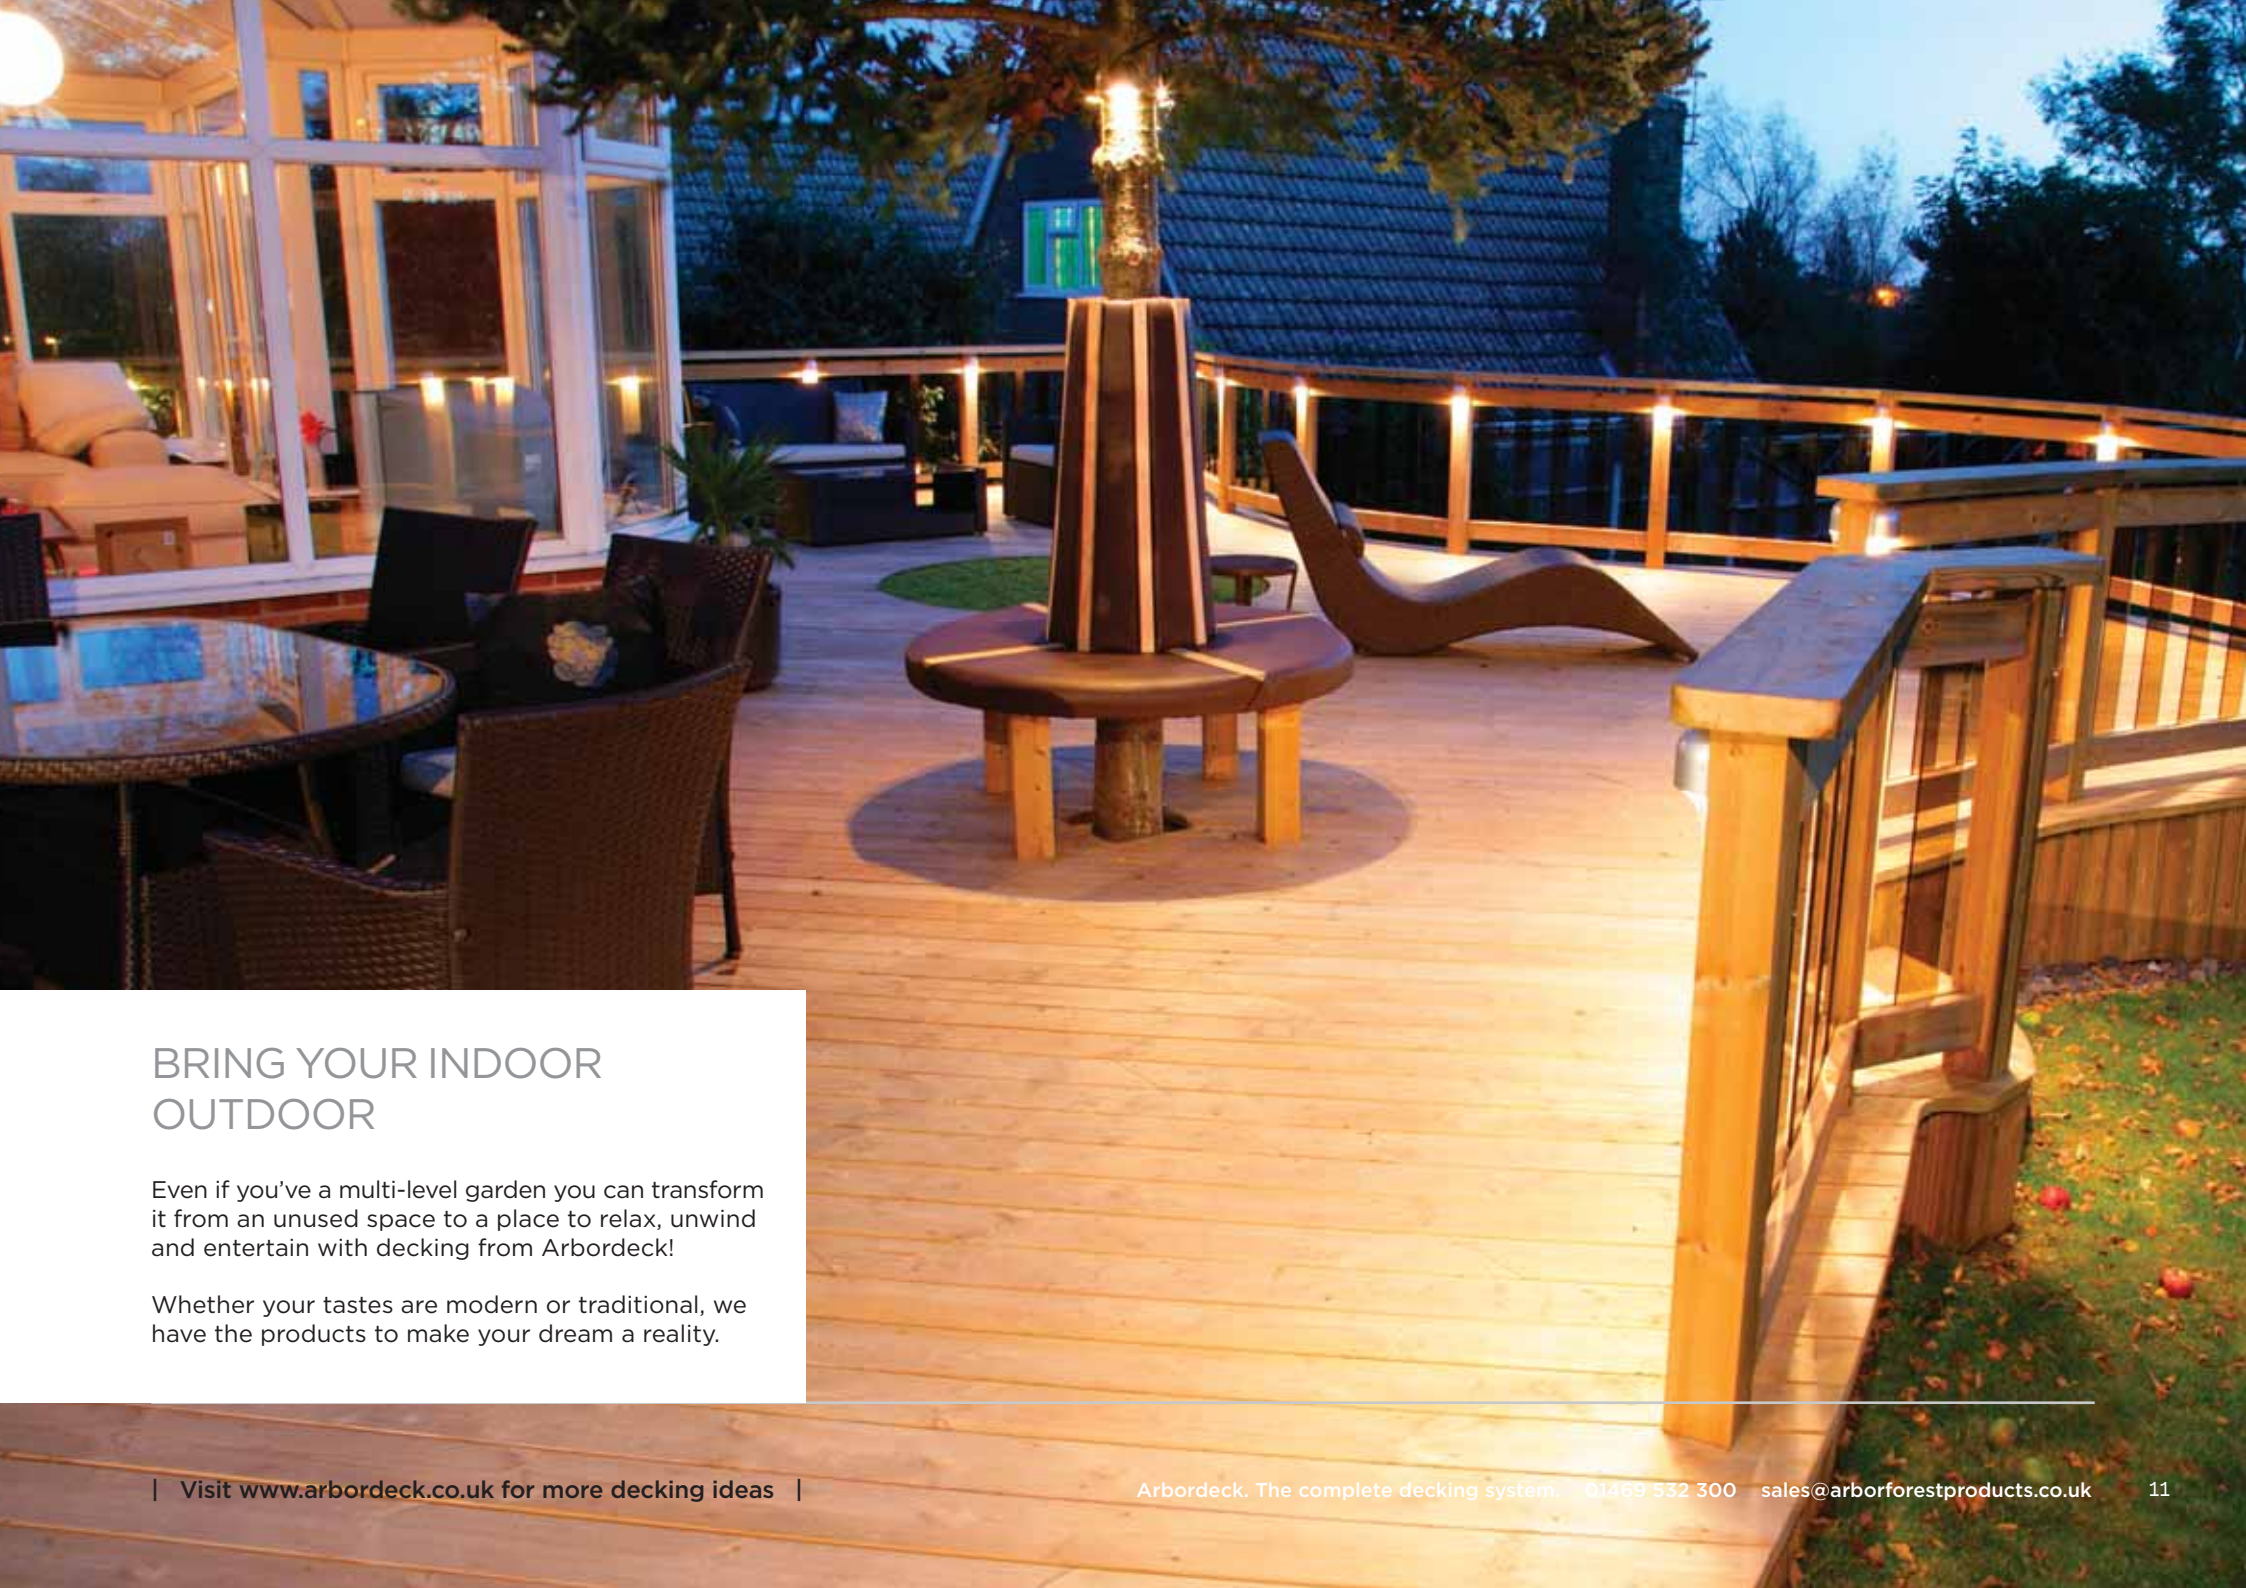

TAKE YOUR PATIO TO THE NEXT LEVEL

With decking from Arbordeck you can simply and effectively extend your house into your garden, helping you make the most of your outdoor space.

Contemporary or classic, we have the products to make your design a reality.

BRING YOUR INDOOR OUTDOOR

Even if you've a multi-level garden you can transform it from an unused space to a place to relax, unwind and entertain with decking from Arbordeck!

Whether your tastes are modern or traditional, we have the products to make your dream a reality.

How to buy Arbordeck

Visit www.arbordeck.co.uk for more information on our wide range of quality softwood decking products, or contact us by phone, fax, as below, or email on sales@arborforestproducts.co.uk

How to build Arbordeck

Are you a DIY enthusiast? Visit www.arbordeck.co.uk for help and advice. Alternatively contact us by phone, fax or email for a brochure to be posted to you.

If you would like your deck professionally installed contact us and we can put you in touch with a Timber Decking Association 'DeckMark™ accredited' installer.

Timber is a natural product

Arbordeck is manufactured from natural timbers and, when exposed to the elements, there may be some surface degradation, movement and checking due to the action of sunlight and moisture. This is a natural process and does not affect the strength of the timber.

The colour of your decking will change naturally over time too. Some options available are to apply a regular coat of maintenance oil; completely change your deck's appearance with the addition of paint and stains or alternatively leave it to weather naturally to an attractive silver-grey.

For further details on installation, maintenance and much more please download our guides at www.arbordeck.co.uk
