

Environmental Policy

Richard Burbidge Ltd is committed to reducing the environmental impacts caused by its operations as a manufacturer & supplier of predominantly timber based products for the building and home improvement sector, and to the prevention of pollution.

The company has implemented an Environmental Management System to meet the requirements of ISO14001. This will establish a performance level for continuous improvement.

We are committed to compliance with all legislation and regulations of an environmental nature, and legislative requirements will be continually reviewed to ensure continual compliance.

Timber Purchasing Policy

Richard Burbidge Ltd recognises its responsibilities as a purchaser of timber from forest sources around the globe.

The company has been at the forefront of industry wide and ENGO led initiatives for nearly 20 years, with a sustained policy of continuous improvement in sourcing timber from traceable and well-managed forest sources.

We currently supply a wide range of products where the timber is sourced from forests that are independently certified by FSC or PEFC certification schemes.

The Timber Purchasing Policy, is designed to minimise the environmental impact of Richard Burbidge's activities when purchasing timber. Our policy is to source timber only from legal and sustainable sources.

Yours Sincerely

A handwritten signature in blue ink that reads "Steve".
