Why Choose Infinitacast?

Infinitacast baths are the ultimate premium bath, hand finished in the UK to the most exacting of standards. They are rigid, durable, strong and with a reassuring weight are perfect for all bathrooms, regardless of bath style chosen.

The versatility of the materials used, the advanced manufacturing process and the quality of our craftsmanship means that Infinitacast baths can be designed in beautiful sculptural shapes that suit the contemporary bathroom.

Made from a high quality acrylic, the baths are reinforced with 7 layers of hand applied fibreglass core matting and resin bonding. The timber framed bath rims and bath bases are fully encapsulated in fibreglass matting and resin bonding providing extra rigidity, meaning the bath will not 'flex' when you step in.

Baths of Strength and Beauty

- SOLID CORE REINFORCEMENT FOR RIGIDITY & STRENGTH
- 7 LAYERS OF RESIN BONDED FIBREGLASS CORE MATTING
- MULTILAYER CORE CONSTRUCTION KEEPS WATER HOTTER FOR LONGER
- FULLY REINFORCED RIGID ACRYLIC BATH PANELS
- HAND FINISHED & PACKED IN OUR UK FACTORY

Cambrian

Clean, modern lines and a luxurious, lustrous finish make Cambrian the perfect centrepiece for a stunning bathroom scheme, whether contemporary or classic in style.

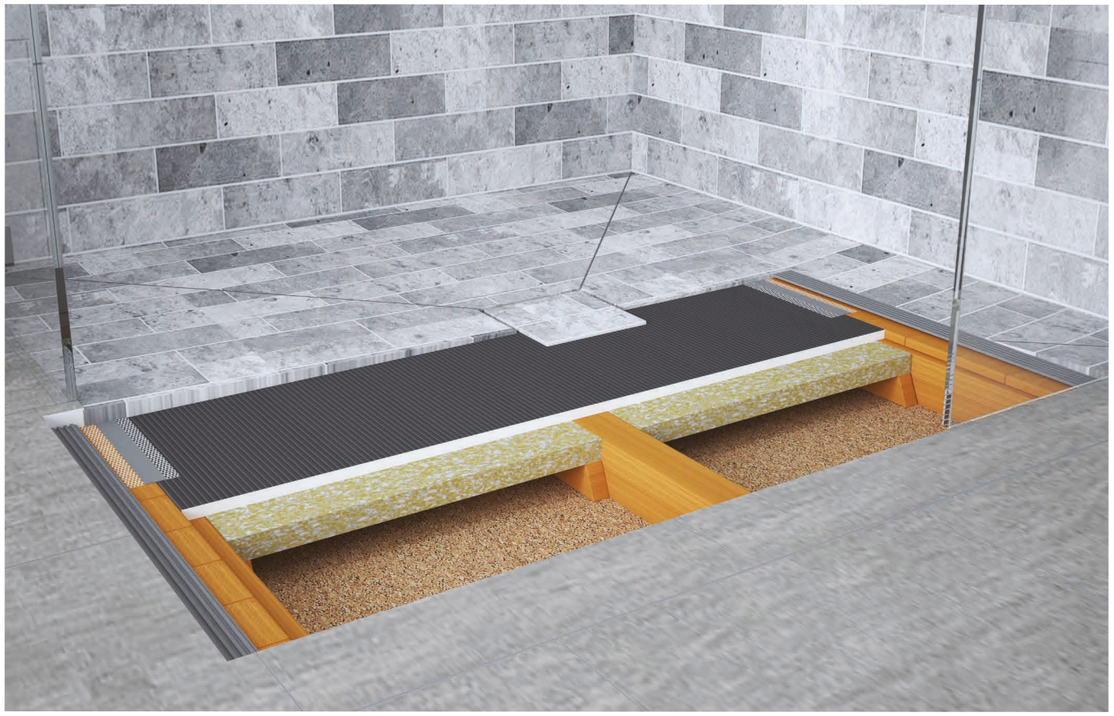
Wetroom Trays

The Infinita wetroom system makes it easy to install high specification, watertight wetrooms. At the core of the system is the wetroom tray, engineered for safety and integrity, yet easy to adapt to any wetroom footprint. Perfect for both commercial and domestic use, the systems are ideal for family homes, hotels and healthcare facilities.



STEP 01

Choose the right wetroom tray

With two choices of Infinita wetroom trays (GRP/XPS), you can be sure to find the correct solution for your needs. With a huge array of sizes, all trays can be cut to size to accommodate awkward or unusual footprints.

STEP 02

Select the drain and choose your finish

Infinita wetroom drains are unique to each style of wetroom tray, Our GRP trays utilise the GRP 2 Part drain and our XPS wetroom trays utilise the XPS drains.

STEP 03

Wetroom Preparation

Remove all plasterboard from the wetroom area and install our tile backer board, enabling fast installation and a ready to tile environment assuring complete waterproof integrity of the installation.

STEP 04

Waterproof your wetroom

The Infinita waterproofing kits come complete with everything that is required to waterproof the wetroom area.

GRP Wetrooms

Manufactured from GRP with a stone resin core the Infinita system is designed for fast, straightforward installation. GRP wetroom shower trays are super strong and can be installed both on timber floors and concrete floors without the requirement of any support.

- Manufactured in Great Britain with up to 30% recycled material
- Suitable for tiles, micro cement and vinyl installation
- Suitable for concrete and timber installations
- Supports up to 470kg in weight across 400mm joists
- Only 22mm thick allowing for flush to floor installation
- Can be cut to size for those unusually shaped areas

XPS Wetrooms

Manufactured from foam these lightweight trays can be cut to size and installed within timber and concrete floors. Suitable for a tiled only environment.

- Under boarding support required for timber floor installation
- Cement finished face ready to accept tile adhesive
- Reinforced face with glass fibre mesh
- Can be cut to size for those unusually shaped areas

Waterproof wall panels with an Aqualock tongue and groove system. For the look of classic ceramic tiles, the Tile Collection range of wall panels are available with a 3D routed 'grouting' line. Made from 7-layers of birch plywood with a decorative laminate surface, wall panels are five times quicker to install than tiles, and come with a 15 year warranty.

Have you ordered your Fibo trims to complete your perfect installation? Various options include the NEW Hidden Corner, Base and L or J finishing profiles. Ask a member of staff for more details.

Polar Grey	0172-M00	2400 (h) x 600 (w)	£145.99

Waterproof wall panels with an Aqualock tongue and groove system are also available in a Non-Tile. They can be mounted directly onto timber frames, wall surfaces or tiles making the job quick and easy and the joints virtually invisible. For a 100% waterproof seal, sealant must be used in all joints to make our panels fully waterproof.

Have you ordered your Fibo trims to complete your perfect installation? Various options include the NEW Hidden Corner, Base and L or J finishing profiles. Ask a member of staff for more details.

Eight reasons to make the smarter choice

- Shorter down-time
- Environmentally friendly
- Shorter installation time
- Lower fitting cost
- 15 years warranty
- Easy to keep clean
- No grouting required
- Simple and quick to install

Fitted Furniture

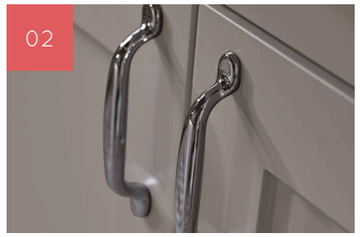
Follow our step by step guide to build your bathroom

Door Style and Finish

Choose your door style and finish from either Flush or Shaker style. Then choose your desired door colour to front your standard or space-saving slim depth units.



Handle Options

Choose your handle style from the six available options.

Worktop and Basin Options

Select a worktop from either our solid surface or laminate options and a semi countertop basin. Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim units.

Cabinets

Choose your preferred cabinet and depth of unit from either our Flush or Shaker range.

Sanitaryware Options

Choose your Infinita sanitaryware. See pages 108 – 137.

Plinths and Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

Mirrors and Cabinets

Choose your preferred mirror or cabinet, see pages 164 – 165. Also add any useful wall cabinets.

Lighting

Select a stylish lighting option.

Bath Panels

Select a co-ordinating bath panel.

Tap Options

Complete your bathroom with the addition of an Infinita basin mixer. See pages 28 – 41.

5 YEAR WARRANTY

Code	Description	RRP Inc. VAT
MDLE006-AC003	Thermostatic Element with T Dual Fuel	£259.99
MDLE006	Thermostatic Element Sealed Electric	£349.99

Standard Element – MDLE002

IP55 Suitable for zones 1 and 2 of the bathroom. Each standard element contains an internal preset over the temperature switch and fail safe fuse. There is no thermostatic control although a suitably rated rheostat (CD-VR) will give thermal control when fitted into the electrical supply circuit.

Heat Sensor Element – MDLE006

IPX5 suitable for zones 1 and 2 of the bathroom. Five temperature settings ranging from 30°C to 60°C. The device displays the temperature to which it is currently set and indicates the status of the heating cycle.

Duel Fuel Look out for the Duel Fuel logo, these radiators are compatible with the Duel Fuel elements above.

Insulation Boards

Insulation boards are the perfect way to reduce your heating costs and get the most out of your underfloor heating system. They prevent downward heat loss, which retains the heating in your room longer and improves the heat up time of the room when the system is turned on.

Features

- Available in 6mm and 10mm to prevent excessive build-up
- Compatible with concrete and timber subfloors
- No primer required when used with underfloor heating

Warmup Thermostats

Choosing the correct thermostat is crucial to ensuring that your heating system works effectively, efficiently and easily. To provide you and your home with an optimum heating experience, Warmup offers a wide range of underfloor heating controllers from simple manual thermostats to the latest, remotely accessible Smart Thermostats.

Warmup Insulation Board

Insulation boards are ideal for use with electric underfloor heating as they prevent the heat from the heating system escaping downwards to the subfloor. The Warmup Insulation Boards do not let the heat pass through from the heater to the subfloor. Therefore the heat gets pushed upwards, onto the floor surface where you want the heat to go.

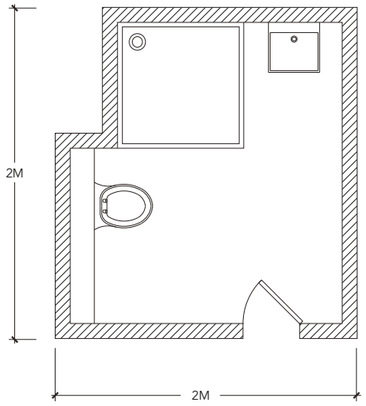
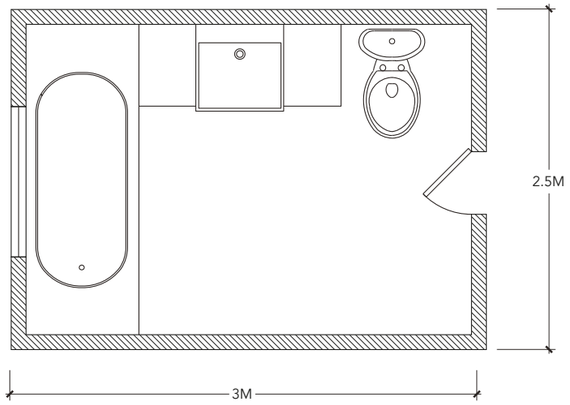
En-suite

Transform your en-suite into a tranquil retreat with modular furniture options that maximise every inch of additional space. Custom-made solutions can perfectly complement the individual needs of your bathroom, delivering a bespoke look with maximum storage capacity to contain your clutter.



Family Bathroom

Sharing a family bathroom requires a carefully planned space. Keep in mind the number of people who will be using the room. Choosing the right furniture and storage is vital to contain the clutter and ensure a stylish space.



Measuring your Bathroom

1. Draw a basic outline plan of the room – you can choose to measure in imperial or metric units but remember to keep the method of measuring consistent.
2. Mark the positions of key features on the room plan such as windows, doors, boilers and radiators.
3. Note the measurements of all walls, ensuring that you include the length of features such as windows and doors. Remember to include the measurement from the corner of the wall to the start of the window or door.
4. Measure any existing bathroom furniture that you tend to keep and note their position if you don't plan to move them.
